I know it seems like this could be
The darkest day you've known
But believe you me
The God of strength will never let you go
He will overcome I know

And the arms that hold the universe
Are holding you tonight
You can rest inside
It's gonna be alright

And the voice that calmed the raging sea
Is calling you His child
So be still and know He's in control
He will never let you go

Through many dangers toils and snares
You have already come
His grace has brought you safe this far
His grace will lead you home

And the arms that hold the universe
Are holding you tonight
You can rest inside
It's gonna be alright

And the voice that calmed the raging sea
Is calling you His child
So be still and know He's in control
He will never let you go

You can hope you can rise you can stand
He's still got the whole world in His hands
You can hope you can rise you can stand
He's still got the whole world
The whole world in His hands

And the arms that hold the universe
Are holding you tonight
You can rest inside
It's gonna be alright

And the voice that calmed the raging sea
Is calling you His child
So be still and know He's in control
He will never let you go
He will never let you go

He's still got the whole world in His hands
Still got the whole world in His hands

I know it seems like this could be
The darkest day you've known
But believe you me
