This is a war
Which we never ever never thought we'd win
But when I lose
Well I'll try again and again
But please forgive me when I'm gone

I don't want you to need me the way that you do
I just need you to want me like I want you
Let's start this revolution and turn out these lights
I've got the solution to your lonely nights

But please forgive me when I'm gone
And all that I've done wrong
And don't be sorry when I leave
Tonight can only be
What you want it to be
We've got all night to keep it

All's fair in love and war
And we're all fighting to be loving more
Your mind will follow if you set your heart free
There's nothing finer than the tangled webs we weave

Don't be ashamed girl of what you've done
You know that you're not the only one
'Cause I could lay right here with you all night
Just as long as I'm gone before daylight

But please forgive me when I'm gone
And all that I've done wrong
And don't be sorry when I leave
Tonight can only be
What you want it to be
We've got all night to keep it

All's fair in love and war
And we're all fighting to be loving more
Your mind will follow if you set your heart free
There's nothing finer than the tangled webs we weave

Don't tell my sister

Don't tell my brother
Call on my lover take me home
Don't tell my mother
Don't tell my father
Call on my lover take me home

All's fair in love and war
And we're all fighting to be loving more
Your mind will follow if you set your heart free
There's nothing finer than the tangled webs we weave
