"Something Different"

Visit "[Something Different](#)" on MotoLyrics.com

Saw you the other day
When you passed my way
I had to do a double take
Something in your smile
There was something in your eyes
And I could tell there'd been a change
And it is such a miracle, what God has brought you
through
And everything about you is just shouting out the proof

CHORUS

There's something different about you
There's something different about you
I see God's love in your heart
And He's making you shine
There's something different about you
Your whole world seems so brand new
You got God's love in your heart

And He's making you shine
There's something different about you

I just can't help myself
I get so overwhelmed
Every time I look around
To see your love outrageous
So contagious, where you were
And where your faith is taking you now
Higher than you've ever dreamed you could ever be
before
And I knew it the moment that you walked right through
the door

CHORUS

So go and tell the good things that Jesus has done
Let every moment be your moment to tell everyone,
yeah
Something different, something different
Something different, different about you
Something different, something different
Something different, yeah

CHORUS
