(Him) Well, here we are again
I guess it must be fate
We've tried it on our own
But deep inside we've known
We'd be back to set things straight

(Her) I still remember
when Your kiss was so brand new
Every memory repeats
Every step I take retreats

(Them) Every journey always brings me back to you
(Them) After all the stops and starts
We keep coming back to these two hearts
Two angels who've been rescued from the fall
And after all that we've been through

(Her) It all comes down to me and you

(Him) I guess it's meant to be
Forever you and me After all

(Her) When love is truly right

(Him) This time it's truly right

(Her) It lives from year to year

(Them) It changes as it grows

(Her) And oh the way it grows

(Them) But it never disappears
(Them) After all the stops and starts
We keep coming back to these two hearts
Two angels who've been rescued from the fall
And after all that we've been through

(Her) It all comes down to me and you

(Him) I guess it's meant to be

Forever you and me After all

(Him) Always just beyond my tough
Though I needed you so much

(Her) After all what else is living for

(Them) Whoa

(Them) After all the stops and starts
We keep coming back to these two hearts
Two angels who've been rescued from the fall
And after all that we've been through

(Her) It all comes down to me and you

(Him) I guess it's meant to be
Forever you and me

(Them) After all the stops and starts
We keep coming back to these two hearts
Two angels who've been rescued from the fall
And after all that we've been through

(Her) It all comes down to me and you

(Him) I guess it's meant to be
Forever you and me

After all
