What happened, what happened?

The country boy has been planting

What happened, what happened?

The police have arrived

What happened, what happened?

The landless die

What happened, what happened?

Massacre not El Dorado

What happened, what happened?

Globo reported

What happened, what happened?

The politician spoke

What happened, what happened?

and nothing happened

What happened, what happened?

Massacre not El Dorado

What happened, what happened?

Radio Bamba reported
