When you come I feelin better

Sky is blue you say forever

OOH OOH..I've been trapped by love...

Then you go so change the weather

Sky is grey bit more than ever...

OOH OOH...

I've been trapped by love...

I've been trapped by love...

I've been trapped by love...

I've been trapped by love...!

So my beer now taste so bitter

But I can't find anything sweeter...

OOH OOH...

I've been trapped by love...

Then you come and I feel better

See my eyes they're full of water

Then again you go

so change the weather...

Askin for the next together...

I've been trapped by love...

I've been trapped by love...

I've been trapped by love...
I've been trapped by love...!
When you come I feelin' better
Sky is blue you say forever
Then you come and I feel better
See my eyes they're full of water
Then again you go
so change the weather...
Askin for the next together...
Askin for the next together...
I've been trapped by love...
I've been trapped by love...
I've been trapped by love...
I've been trapped by love...!
I've been trapped by LOVE
