If you recall the words I used then
It was before, and things are different
If you look back, you'll find I warned you
And it was you who chose to ignore me
Can you explain my lack of feelings?
Did you discuss this with me or not?
Can I confront you over me now?
Will you remain in your position?
You could suggest a compromise here
Would it be fair to take blame for things?
Can we agree there's nothing to that?
I think it's best that we talk later
