Down in the streets outside of Washington DC

I wasted all my time and you were there with me

Back then it meant so much to have you by my side

I always had your back and you always had mine

Sayin...let me go, have some fun

Well my decision sucks to you, but I'm so young

We'd hang out late at night, just trying to have fun

We were such punk ass kids but we knew everyone

And who could see through such blazed up bloodshot
eyes

There was a plan for us one day we'd realize

Chorus
