Shadows dancing slowly on my wall
Moonlight painting silver to the sound of heartbeats
Magical emotions take control
Knowing we will meet before the night is over
Iâ€™m gonna make you mine
Love you till the end of time

CHORUS

Take me to your heaven
Hold on to your dreams
Take me to your heaven
When my nights are cold and lonely
Flying high together
On the journey to the stars
Take me to your heaven to your heart

I can feel your body next to mine
Reaching for a kiss that keeps me warm and tender
Seven steps to heaven show the way
When Iâ€™m there I give myself in sweet surrender
Iâ€™m gonna make you mine
Love you till the end of time

CHORUS

Take me to your heaven
Hold on to your dreams
Take me to your heaven
When my nights are cold and lonely
Flying high together
On the journey to the stars
Take me to your heaven to your heart

As dawn is breaking there is so much more to say
So will you be my one and only
When nights are lonels
Hold on tight forever
Take me to your heaven - to your heart
