deep inside it comes alive

there is a whisper that feeds the soul

words so beautiful like a spanish rose

till you hypnotize that's when you arrive

[instrumental break]

[chorus]

You got to strut like you mean it

Free your mind

It's not enough just to dream it

Come on, come on.

Get up when you feel it

It's your chance to shine

Strut like you mean it

Come on, come on, come on, yeah.

Oh, oh, oh, yeah.

Pounding the pavement, kickin through the streets

so wonder like Picasso in the Barcelona heat

passion is the fashion and life is poetry

welcome to another world

where every heart can beat(ow,ow)

in a different tempo

there's never a wrong one

(never a wrong one(never a wrong one))

building to a crecendo

you know the journeys just begun (ah,ah,ah)

[chorus]

hey feel the flow

when you just can't move no more(no more)

the city wants to show(aha) you  
something(something),something (something)

a heart unfolds(unfolds) that you would never know  
(never know)

barcelona's soul(uh) says something (something)good  
is coming,

its coming, yeah

everybody knows that something good is coming on

[chorus]

you got to strut.....

Bienvenidas esto es mi sueno

Come on, come on, get up!

Siganme y descubre mi Barcelona

Stand! Come on, come on!

Bienvenidas esto es mi sueno

Come on, come on... [fading]
