She's got you rapped up in her satin and lace

Tied around her little finger

She's got you thinkin' you could never escape

Don't you know your heart's in danger

There's a devil in that angel's face

If you could only see the love that your wasting

Chorus:

I can love you better than that

I know how to make you forget her

All I'm askin' is for one little chance

Cause' baby I can love you, baby I can love you better

I'm gonna break the spell she's got on you

Your gonna wake up to find

I'm your desire my intentions are true

Hey babe I know in time

Your gonna see what you mean to me

So open up your eyes

Cause' seein' is believin'

(Chorus 5X)
