I should go out tonight
Get on with my life
Break these chains of solitude
With a little luck and a little help
I might even find myself
In the arms of someone new

Cause once you've loved somebody
It ain't that easy to do
Once you've loved somebody
Like I loved you

Look what you've gone and done
Ruined everything for anyone
Who tries to steal this heart away
I can't get you off of my mind
Try to tell myself a million times
A little time is all it takes

Cause once you've loved somebody
It ain't that easy to do
Once you've loved somebody
Like I loved you

I gave you everything
That I had to give
I don't know if I could go that far again

Cause once you've loved somebody
It ain't that easy to do
Once you've loved somebody
Like I loved you

Once you've loved somebody
It ain't that easy to do
Once you've loved somebody
Like I loved you
