"One Heart Away"

Visit "[One Heart Away](#)" on MotoLyrics.com

Well you know how much you mean to me
And babe I know how much you really care
But when we talk about eternity
Forever seems to be too much for you to bear
Put your faith in my heart
And tell me you could be mine
Just a minute of your time
I'll pull you closer til I make you mine
If you really love me let's start today
Our love is only one heart away
You say that you've been burned by the flame
And that you're never gonna try love again
But there's just one thing that I need to say
For you to think of me as more than just your friend
When I look in your eyes
I see your heart in mine
Just a minute of your time
I'll pull you closer til I make you mine
If you really love me let's start today
Our love is only one heart away
I don't know what your heart's been thinking

I only know that mine really needs you

We've been together long enough to know

We should just hold on

Just a minute of your time

I'll pull you closer til I make you mine

If you really love me let's start today

Our love is only one heart away

Just a minute of your time

I'll pull you closer til I make you mine

If you really love me let's start today

Our love is only one heart away
