Whistles and bells won't ever bring you love and happiness

She's never gonna give her heart the way that I would give

She's got you spinning round in circles, I can tell

With her lights, buzzers, whistles and bells

I see her running round this town in her fancy car

A girl who can't afford your hopes and dreams

But darlin' all those pretty toys won't help your broken heart

When she's through and sends you packin' back to me

Whistles and bells won't ever bring you love and happiness

She's never gonna give her heart the way that I would give

She's got you spinning round in circles, I can tell

With her lights, buzzers, whistles and bells

I cried those lonely tears until the day I realized

That you were hurting so much more than me

There are some things in this world that just don't have a price

Like the love that waits here for you patiently

Whistles and bells won't ever bring you love and happiness

She's never gonna give her heart the way that I would
give

She's got you spinning round in circles, I can tell

With her lights, buzzers, whistles and bells

She's got you spinning round in circles, I can tell

With her lights, buzzers, whistles and bells
