"Talk About Love"

Visit "[Talk About Love](#)" on MotoLyrics.com

What kind of love is it we've got right here
They say I sound so sad when you're not near
You make me laugh and chase the blues away
Hate to admit it but you make my day

Wait a minute
Why can't we admit it
This is no ordinary thing

Let's talk about love
You and I together
Goin' on forever and ever
Talkin' 'bout love
Can't think of any other
One with whom I'd rather
Talk and talk and talk about love

They say our feelings are beginning to show
Do they know something that we don't know
Are we lovers or are we just friends
This kind of questioning never ends

Does it matter
When we've got each other
Whatever kind of love this is

Let's talk about love
You and I together
Goin' on forever and ever
Talkin' 'bout love
Can't think of any other
One with whom I'd rather
Talk and talk and talk about love

Let them read between the lines
While we have a good time
Talking and talking and talking and talking 'bout love...
