[2Pac]

He, he, he

Baby it's the thug in me

You know what time it is..

By age 13 I was buckwild

Good in my knucklegame

Made it through a tough childhood

Never be the same

Walked in my daddy's shoes

No time to be a peaceful man, had to shatter fools

That's 'til I put my eyes on you

Goddamn sweetheart

You got some thighs on you

Now I can't wait to get you home

Get you all alone in my bedroom

Baby can we bone and get it on?

Tell me lady how you like me

And if you want it harder, baby

Come and bite me, but do it lightly

Cuz that excites me when the lady bite

And if you lick me right I'll do it all night

Only got fucked by a drug dealer

Never felt the real passion of a thug nigga

Though I like the way you scream when you lovin' me

I'm goin deep, it's the thug in me

So whatcha sayin, girl?

1 - [K-Ci & JoJo]

A thug nigga like me

Need a thug lady like you

I got a lot of thug in me

That I wanna put in you

Repeat 1

[K-Ci]

Woke up this morning

Feelin' kinda horny (he, he)

I want you to come over

To get some of this thug love

Tell me how you want it, girl
Tell me how you like it, girl
Tell me do you need it, girl
Don't try to fight it, come on

Repeat 1 (2x)

[K-Ci]
How do you want it?
I said toss it up
Let me be your dentist
Let me floss it up
Tell me how you want it
Tell me how you need it
Tell me how you like it
Don't try to fight it, no

Repeat 1 (2x)

[2Pac]
Moan baby when we bone, it's on
It's so strong niggas in the next room will cum
I got your head swinging
Tongue kissing as I hit it from the back
With the bed ringing, he he
Give me space as I lick your face
Stick the place synchronized so I grind
When they kick the bass
Love fucking in the mornin'
I get you wet, bust a sweat, then I'm gone
Left you on your own, girl
Tell me what you feel like
Blindfolded I'm cold do it real nice
That's if it feel right
Maybe it's the thug in me
I pull your hair while we fucking in the chair
When you loving me up against the wall
You can have it all, just try
Bet my kiss can get you high
Don't pass by
Grab me by my nuts when I'm loving you
Now open up and let me put the thug in you

Repeat 1 (4x)

[2Pac]
I don't got no motherfucking expectation
You know what I'm saying
You see don't be asking me what I be pulling your hair
Or why I fuck so damn much
It's that thug passion know what I mean?

No mercy
What you scared of? (I ain't scared)
Did you come over her to get fucked? (yeah)
You ain't come over here to get strokin' and all that
bullshit
You came over her to get fucked
I fuck you thug style baby
You leave my house sayin' 2pac game served you
Don't have me crossed up in that bullshit (okay)
Turn it up (okay baby)
Baby it's the thug in me (yeah)

girl moans in background

A lot of y'all fuckers heard Whatz Ya Phone Number?
And thought y'all could fuck with me in the bedroom
It ain't going down
As long as they make Ginseng and condoms
Bitch you outta luck
I don't got no motherfuckin explanation
My motherfuckin motto
Baby it's the thug in me...
