(Sample from "Man of La Mancha (1972)") I will impersonate a man. His name (((Kamach))) Being retired, he has much time for books He studies them from morn till night and often through the night and morn again and all he reads oppresses him Fills him with indignation at man's murderous ways toward man He ponders the problem of how to make better a world where evil brings profit and virtue none at all He lays down the melancholy burden of sanity and conceives the strangest project ever imagined (Intro) Kamachi!!!!!!!!
