Visit "[Jones Soda](#)" on MotoLyrics.com

I wanna drink you up
I wanna pop your top off
Can't let you see
How I want you insida me

You really float my boat
When I feel you slide down my throat
It's hard to keep my cool
When I swallow you

You really float my boat
When I feel you slide down my throat
It's hard to keep my cool
When I swallow you

When I put your neck in my mouth
You really really drive me wild
When I taste your juice
I can't help but smile

You're the one that I long for
Don't like the others any more
I love your bright colored body
I think ill have a sip or three

You really float my boat
When I feel you slide down my throat
It's hard to keep my cool

When I swallow you

You really float my boat
When I feel you slide down my throat
It's hard to keep my cool
When I swallow you

When you hit my tongue
You make shivers run
Up and down my spine
I'm gonna make you mine

When you hit my tongue

You make shivers run
Up and down my spine
I'm gonna make you mine

You really float my boat
When I feel you slide down my throat
It's hard to keep my cool
When I swallow you

You really float my boat
When I feel you slide down my throat
It's hard to keep my cool
When I swallow you

I LOVE YOU JONES SODA!
I WANT TO HAVE YOUR BABY
JONES SODA
I LOVE YOU
