It's too far, It's too fast It's too quick, It won't last
It's not right, but it's not wrong
There's not time, move along
But i've come much too far
and i know what's in my heart
and i know what i feel
i can tell when it is real
my time has come

it's okay be afraid, it's alright you just take that fear
turn it in to your strength
it's called life and that's why we're here
now i've come much too far and i know what's in my
heart and i know what i feel and this time i know it's
real my time has come

and like the road below me
i know i'll touch the sky above a million
(a million footprints around me)
tell me it can be done
my time has come
(now i've come)
i've come much too far and i know what's in my heart
and i know what i feel and this time i know it's real
my time has come ooh

it's so close, it's been a long time coming
it's here and now, and i know it'll last
it's so right, that it can't be wrong
now's the time, for me to be strong
now i've come much too far and I know what's in my
heart and i know what i feel and this time i know it's
real my time has come

i know that i just gotta keep movin on
i know what's in my heart my time has come
(repeat 4x)

my time has come oh oh oh
