[Verse 1 (Kiely)]

I don't apologize, that i have compromised myself and
other guy.
Its you I'm talkin' 'bout.
I've been with him for years.
But baby you uh, I must be crazy.
I want you for my own
You've been with her so long.
She never done you wrong and she's so nice to me
We should have never touched 'cause now we're in
love.
We must be crazy

[Chorus]

You got a girl, i got a man but i can't lie.
I wanna leave him when i look into your eyes
You never thought that holdin me would change your
life.
I guess that __ stands for two
Wrongs can't make a right.

[Verse 2 (Adrienne)]

Its something that i can't help.
My heart wants someone else.
There's nothing that i can do.
Never thought it would be you.
You say your not afraid.
I'll do the same to you.
You must be crazy.
Its to late to turn back now.
I'm afraid we don't know how.
Baby keep your faith in me.
I'll never let you down.
Its funny how we both know there's noone else for us
it's crazy.

[Chorus]

You got a girl, i got a man but i can't lie.
I wanna leave him when i look into your eyes
You never thought that holdin me would change your

life.

I guess that __ stands for two
Wrongs can't make a right.

You got a girl, i got a man but i can't lie.
I wanna leave him when i look into your eyes
You never thought that holdin me would change your
life.

I guess that __ stands for two
Wrongs can't make a right.

[Bridge]

I been dreamin, baby you and I just leavin all the things
Behind we can make it in a __
Baby pack our bags lets go.
I just wanna be your girl.
You and i against the world.

I been dreamin, baby you and I just leavin all the things
Behind we can make it in a __
Baby pack our bags lets go.
I just wanna be your girl.
You and i against the world.
