Sometimes, I cant keep my feelings inside
Feelings I cant show, feelings they cant know
Each night, theres no one here for me, but there is a
memory
and take a look at me, and cherish memory

[Chorus]

Dear Diary, long time no see (its been a long time)
Its been a while, since you've heard from me (from me,
mmhh)
You'll always be a friend to me, dear diary, (mmhh)
dear diary

And since, the last time I wrote theres some things that
you should know
A friendship has grown! He's someone special, Ive
mentioned him before
But now its so much more
(A love I wont forget) I couldnt wait to tell you this, dear
diary

[Chorus]

I hold so many things inside,
in you dear friend I can confide
to secrets that got you hold a key
thank you for listening to me
you always been my trusted friend
youve helped me though the thick and thin
and thats why youll always be
a special part of me

[Chorus]

Its been a while, since you've heard from me,
I share with you, my precious memory
you bring to the top, the girl I used to be
I cherish you, my dear diary
Youll always be a friend to me, dear diary
