"Embrace"

Maybe you hate me

I think you do

Maybe you're angry

Maybe you're confused

Maybe you want me

I bet you do

Were you mistreated

Where you abused

I will embrace you

Give me your hands

Poor little man

Now do you want to kill me

Or do you want to kiss me

I will embrace you

Don't be uneasy

Don't be afraid

Now the king of the jungle

Is a queen for a day

I will embrace you
