Why you standing with your hands in your pocket?
Plug it in the wall and burn up the socket
Bend your knees just in case you start to drop it
Solid as a rock, like the way I pop it?
(Yeah) Oops, the beat made me do it
Shake it off and let me get back to it
It's a party baby, don't be scared to lose it
Lead 'em on, we can make our own music

Girls moving like they're
Really bout to give it up
Boys acting like they're
'Bout to put their money up
Bartender lose the shot and fill it up
Keep your lighters in the air
We're about to blow it up

(Yeah) I hate a hating ass chick
(What) I hate a hating ass chick
(What's the motto) I hate a hating ass chick
Cause what they really want is to be in my clique
(Yeah) I hate a hating ass chick
(What) I hate a hating ass chick
(What's the motto) I hate a hating ass chick
Cause what they really want is to be in my clique

Like a thief in the night, I'm a hit man
Keep niggas on their toes like quicksand
Lil' mama, go and put it on credit
Money in my pocket, I can always get it
Loosen this strap, bra too tight
I'll take your man by the end of the night
You're doing things that you know that I like
If you're good boy, I can miss my flight

Girls moving like they're
Really bout to give it up
Boys acting like they're
'Bout to put their money up
Bartender lose the shot and fill it up
Keep your lighters in the air

We're about to blow it up

Girls moving like they're

Lil' hussies yacking
Send them bitches packing
Throw them chips you stacking
Real talk, we keeps it cracking
Lil' hussies yacking
Send them bitches packing
Throw them chips you stacking
Real talk, we keeps it cracking

It's on tonight, it's on tonight
It's on tonight, it's on tonight
It's on tonight, it's on tonight
It's on tonight, it's on tonight

(Yeah) I hate a hating ass chick
