Kiely says stop
Turi says go
Adrie says stop
Poststars you ready to play (echos)

I can tell that your feeling me and from the corner of
my eye
I see you checking me, but boy you better take it slow
cause you
Can't pass go till I say so
I can tell that your feeling me and from the corner of
my eye
I see you checking me, but boy you better take it slow
cause you
Can't pass go till I say so

When you made your move I knew it was on, try to turn
me out with
Your looks and charm, guess you thought that you had
this one won
You guessed wrong cause the games just begun

Do I look like I was born yesterday (yesterday), you
better find another girl
To play (oh no), I must admit your game was kind of
slick this time you met
Your match I'm up on it

I can tell that your feeling me and from the corner of
my eye
I see you checking me, but boy you better take it slow
cause you
Can't pass go till I say so
I can tell that your feeling me and from the corner of
my eye
I see you checking me, but boy you better take it slow
cause you
Can't pass go till I say so

Wanna take some time and feel things out, stakes are
high and I got

Some doubts, pressures on things are touch and go,
should I raise
You boy or should I lay low

Do I look like I was born yesterday (yesterday), you
better find another girl
To play, I must admit your game was kinda slick this
time you met
Your match I'm up on it

I can tell that your feeling me and from the corner of
my eye I
See you checking me, but boy you better take it slow
cause you can't
Pass go till I say so
I can tell that your feeling me and from the corner of
my eye
I see you checking me, but boy you better take it slow
cause you
Can't pass go till I say so

(Kiely's rap)
Yo baby you dangerous, you and your crew wanna
hang with us,
Maybe but you be acting so shady, you done picked the
wrong ladies
Kiely, T, and Adrie, baby you feeling that, you wanna
bring it back
You ain't getting that, I'm saying though noone goes till
I say so
Take a step back yo lay low, Little Women get them
pesos and stay dro
Whoa you don't know, now you do, I'm tellin you stand
off, sorry cut
Your plans off look all you want but hands off, uh

I can tell that your feeling me and from the corner of
my eye
I see you checking me, but boy you better take it slow
cause you
Can't pass go till I say so
