Oooohhh
Oooohhh
(Oohh check it out)
Listen...

Now that I think about it, yeah it's time
See I've been wondering if you and I
Would finally address what we're feeling inside
(inside)
I've been fighting it off (I've been fighting)
But everytime that I'm around you
I think I'm falling in love
Even though I know I'm not allowed to baby

[chorus]
I can't help myself you dont have to tell me (tell me)
That you're in love with me
Baby I just want to know if we
Could ever be (could ever be)
Ever be more than friends

See everytime I hold you
I don't wanna let it go
I don't know and just to hold you like I do, no
Baby there no doubt about it
Ima lose my mind
If you don't wait inside me
Coz I'm really curious
To experience the inner you and me

You don't know how
I wanna be with you ever since
I lay eyes on you (lay eyes on you)
I'm crazy for you (I'm crazy for you)
More you got to know

Noooo.....Ohhhh.....

[chorus]
I can't help myself you dont have to tell me (tell me)
That you're in love with me (you're in love with me)

Baby I just want to know if we (I just gotta know)
Could ever be (could ever be)
Ever be more than friends

You gotta realize, I feel this way inside
Never had a friend, I needed in my life
So now I'm telling you, so you will know the truth
I got lost in your eyes, the first time I saw you
No matter what you say, no matter what you do
I'm gonna be right here, wanting to be with you
You know I'm dying if I cant have you by my side

I.....Ohhh

[chorus]

I can't help myself you dont have to tell me (tell me)
That you're in love with me (tell me you're in love with
me)
Baby I just want to know if we (I just wanna know)
Could ever be (ever be)
Ever be more than friends (I just wanna know)

Friends....

Friends.... sing it one more time
Friends.... can we be more than friends
Now baby tell me what's the deal
