This ain't no maybe, baby, oh no

Today is my day that I know fo sho
Gotta speak first, gotta let you know
In case you're wonderin' if I'm available
If you think that I am, I am and if

Somethin's on your mind you should let it off
I got time maybe we should talk
It's no coincidence when you're caught off guard
You and me supposed to be baby

I'm not tripping on your car or where you live
It don't matter if you're broke, we'll be strugglin'
What I'm sayin' is that I will be your baby
This ain't no maybe

And I ain't tryna get my thoughts all in your way
I don't even want your check purse
You're the one I wanna kick it with
This ain't no maybe, is you feelin' me, yeah

You'll have to pardon me if I come on strong
It's just that you got everything I want
It's your character, the way you be
It's so intriguing to me baby

I like your braids and your thug appeal, keep it real
How's about me and you on the low, what the deal?
Baby in case you haven't noticed
Without you boy I'm so hopeless

I'm not tripping on your car or where you live
It don't matter if you're broke, we'll be strugglin'
What I'm sayin' is that I will be your baby
This ain't no maybe

And I ain't tryna get my thoughts all in your way
I don't even want your check purse
You're the one I wanna kick it with
This ain't no maybe, is you feelin' me

You make me weak in the knees, I can't sleep, I can't eat

I can't even think baby, can't even concentrate

I can't even think straight, do you need a lady

Hey boy, I wanna be your lady

Let me be your lady, let me be your baby

Let me be your lady, say no maybe

Hey boy, I wanna be your lady

Let me be your baby

I know that I'm the one for you

Boy don't you know

I'm not trippin' on your car or where you live

It don't matter if you're broke, we'll be strugglin'

What I'm sayin' is that I will be your baby

This ain't no maybe

And I ain't tryna get my thoughts all in your way

I don't even want your check purse

You're the one I wanna kick it wit

This ain't no maybe, is you feelin' me

I wanna be your lady, no actin' shady

And boy I put that on everything, everything,
everything

Boy I wanna be your lady, no actin' shady 'cause I'm
your baby

And I put that on everything, everything, everything
