20,000 seconds since you've left and I'm still counting  
And 20,000 reasons to get up, get something done, but  
I'm still waiting  
Is someone kind enough to pick me up and give me  
food,  
assure me that the world is good  
But you should be here, you should be here

How colors can change and even the texture of the rain  
And what's that ugly little stain on the bathroom floor  
I'd rather not deal with that right now  
I'd rather be floating in space somewhere or  
Worry about the ozone layer

And it's almost like a corny movie scene  
But I'm out of frame and the lighting's bad  
And the music has no theme  
And we're all so strong when nothing's wrong  
And the world is at our feet  
But how small we are when our love is far away  
And all you need is you
