### "All Righth"

I lock the door and lock my head  
And dream of butterflies instead  
The Beauty of their color wings  
The trees, the grass, and pretty things  
And that a nation fills the voice of my existence

Daddy says: "I love you girl, it's not your fault  
Your mum and me don't get along"  
I know he's lying, I know there is no such thing as  
unexplicable  
I hear and forget this world and bedding ??? suddenly  
the sun comes up  
That's when my pets all come alive  
They cheer me up and tell me:  
"Everything's all righth, stuff animals are allways righth"

My favourite song, my favourite story  
I wonder if they even know or if they care  
Or if they even notice I am standing there  
I want my pets to come alive and cheer me up and tell  
me:  
"Everything's all righth, stuff animals are allways righth"

My eyes are wet, ??? waiting  
Some'one has to get that phone
