It's easy to say no hard feelings when you're talking to
a robot
But it gets a little tougher when she starts to take her
mask off
Stupid mother-f***** should've never took my clothes
off
3... 2... 1 Blastoff

Yeah, she's an android got it on a Polaroid
White lights in her eyes got me all paranoid
Strait outta the movies with some blade-runner shit,
tongue to the battery speaking 8-bit.
Like Atari but sorry no buttons. the only games she
plays is lie about something
That's a crew to back up, before she takes her mask
off.
3... 2... 1

I don't wanna date another robot like,
All I ever hear is how she buzz all night.
About you don't wanna see another robot fight,
And if you never learn to treat a robot right.
All I hear is bleep-bloop, R2D2
When you pull her mask off her face is see through
Control alt delete you until you wipe the past off.

Everybody in the place do the robot
I can see it in your face, do the robot
If you got metal parts put your hands up
Everybody in the place do the robot
Yeah, I can see it in your face, do the robot
If you're born without a heart put your hands up.

It's easy to say no hard feelings when you're talking to

All I ever wanted was for you to say you loved me
But somehow that emotion got jumbled up in your
circuitry
Worshiping, Lying in your bed a question on my tongue
Should've known that you were cold, I should've known
that you were numb
I should've run, I should've run. All the things I
should've done
Should've seen my future coming, save my soul from
getting spun.
Should've never let your dark eyes tie me into knots
But I guess that's just what happens when you try to
date a robot.

(X2)

But

I guess that's just what happens when you try to date a
robot
