I said I never loved you - I didn't mean it  
I said I don't think of you - I didn't mean that  
and when I never held you - I didn't mean that  
and when I made you cry - I didn't mean that  
and when I drank too much - I didn't mean that  
and when I used you for a crush - I didn't mean that  
and when I talked too much - I didn't mean that  
and when I said good-bye - I didn't mean that  
I didn't mean that

I had too much to think  
and now it's going to my head  
anything I give  
everything I said  
now I'm all alone  
and my house is not a home  
and I'm heavy with love I've never shown

and all those times I cashed my cheque and gave you  
not a single dollar  
and everytime I came home with cheap perfume upon  
my collar  
and all those nights I made you stay up just to hear me  
holler  
and all those times I used your back to make me a little  
little bit taller  
I didn't mean that  
I didn't mean that

I had too much to think  
and now it's going to my head  
anything I give  
everything I said  
now I'm all alone  
and my house my house is not a home  
and I'm heavy with love I've never shown
