I'm lonely  
As i slowly go insane  
Through my window there  
Ain't a thing  
That looks the same

Chorus  
And i don't know where to find you  
To sing to you my song  
And there's no way to bring you back  
To this place where you belong  
Bring back my love!

Since you been gone  
These doors are locked and i got no key  
And now these stone cold walls have come to life  
And they're closin' in on me

And i don't think that i'm strong enough  
To be what i can be  
Like i'm caged behind these iron bars  
And i'm trapped inside with me

Chorus x2  
And i don't know where to find you  
To sing to you my song  
So there ain't no way to bring you back  
To this place where you belong  
Bring back my love!
