Sweat sweat, cos I'm a poisonous pill  
Pop me in your mouth baby, sit and be still  
Not yet, I ain't through with you girl  
Put me in your glass baby, give me a swirl

I said, sweat sweat, cos I'm a poisonous pill  
Pop me in your mouth baby, sit and be still  
Not yet, I ain't through with you girl  
Put me in your glass baby, give me a swirl

Don't stop, don't let (oh)  
Freeze up your trembling limbs  
Don't you regret it  
Cos you can bet that this won't even ever happen again

So hold me close tiny dancer  
The only thing I got is electrorock cancer  
I saw a picture on the canvas,  
Baby's got a ciggy in her lip and knows she's  
cancerous

Yes, yes; in your tight white dress  
You're all alone and I'm about to microphone check.  
Oh yeah, prep the area here  
Shock, shock, electrorock and steady now; clear.

Yes, yes; in my tight white vest  
You're all alone and I'm about to microphone check.  
Oh yeah, prep the area here  
Shock, shock, electrorock and steady now; clear.

I said, sweat sweat, cos I'm a poisonous pill

Pop me in your mouth baby, sit and be still  
Not yet, I ain't through with you girl  
Put me in your glass baby, give me a swirl

I am a static hat full of magic tricks  
You are kinetic, slow down baby  
Why you leavin' so quick?

So hold me close tiny dancer

The only thing I gots is electrorock cancer  
I saw a picture on the canvas,  
Baby's got a ciggy in her lip and knows she's  
cancerous

Yes, yes; in your tight white dress  
You're all alone and I'm about to microphone check.  
Oh yeah, prep the area here  
Shock, shock, electrorock and steady now; clear.

Yes, yes; in my tight white vest  
You're all alone and I'm about to microphone check.  
Oh yeah, prep the area here  
Shock, shock, electrorock and steady now; clear.

Steady now, steady, steady now  
(I am a static)  
Steady now, steady, steady now  
(Hat full of magic tricks)  
Steady now, steady, steady now  
(You are kinetic)  
Steady now, steady, steady now; clear.  
(Slow down baby, why you leavin' so quick?)
