

3OH!3 "Still Around"

Visit "[Still Around](#)" on MotoLyrics.com

Go ahead and burn it down
I'm drunk and so is everyone else in this devil town
They won't let me turn around
To get one last look at my baby

Well, she's still around
Well, she's still around
Well, she's still around
Well, she's still around

Go ahead and build it up again
This city's just cemeteries and forgotten
In my only hopes to see you
And even if I never do

Well, she's still around
Well, she's still around
Well, she's still around

Well, she's still around

And I know what you're thinking
But that won't stop this drinking
It's the least I can do

'Cuz this life is anything but certain
When they close the final curtain
You'll get a glimpse of the truth

'Cuz you're still around
Well, she's still around
Well, she's still around
Well, she's still around

Go ahead and burn it down
I'm drunk and so is everyone else in this devil town
