I feel the beat I feel it now,I feel it all around me

its moving my feet, I feel the heat I feel it all around

me

Dance Dance heres your chance to show owe girl

what you can do from dancing on the chair(freaky style)

To dancing in the club with all eyes on me

I see your smile and it's like (ah ah ah)

I see your lips and their like (come, come,come)

and the and the rhythem is killing me saying

Come on lets party boo, Come on cause I know you want me to

Come on the night is young and come on this song is for you

So I walk over and I do a little dance

get's him excited,that he had to hide his pants

so we walk out until the parking lot and you know its

time for that (freaky style) so

scoot over, move over I'm about to take over

I want to do more of the things that excites you

But the rhythem is killing me saying

Chorus repeat

Bridge

Its all right if you wanna take a chance and its all right
if

you wanna come with me, now put your hands around
my hips and dance

chorus repeat twice
