"One Law For Them"

Go to football, throw a brick,
Get no mercy, months in nick
Riot in the ghetto, red alert,
Guilty free, innocent hurt

We've been warned of rivers of blood
See the trickle before the flood
Pretend nothing happened, make no fuss
One law for them, One for us

One law for them, One law for them,
One law for them, and another law for us

No fun, no homes, no job, no use
what else is used as an excuse
Families fighting, families looting
next theres death, then theres shooting

One law for them, One law for them,
One law for them, and another law for us

Riots in London, blame Old Bill
We've been lucky no ones killed
Violence on the streets, more to follow
Freedom for those freedom fighters

One law for them, One law for them,
One law for them, and another law for us
