"Salva Me"

Silent Darkness sweeping lonely Earth
Seeking a place where truth still has worth
Alien power watching over me
Is my longing what I find in Thee

Searching for something to satisfy my soul
Is Darkness what I find in the whole
Lust and hate cover my fate

Across the Sea of Tranquillity
The dream fulfills my needs

I kneel behind my circle of light
I beg Nature to shorten the night
I hear the chant through my ring of fire
There is something out to seek a woman's desire

Can you hear the chanting
Can you hear the whisper
Draw a ring of fire
Dangerous attention
strikes the one who is searching
Draw a ring of fire
be careful as you step across the line
Make sure you leave your soul behind
Draw a ring of fire
