There's a little thing called cause and effect, says that
what you do now

Determines what happens next, the cause and effect

Well, the bashful boy likes the pretty girl, if he don't say
hello

You bet somebody else will, it's the way of the world

And if you don't want to have any regrets

Follow your heart to the cause and effect

I was walking down by the avenue when all my negative
thoughts

Put me in a bad mood, a very bad mood

Who could think of a better way to ruin a perfectly ok
day

Just thinking that way

And if you don't wanna have any regrets

Open your mind to the cause and effect

Now, to get results with a minimum toil, you just plant
the seed in the fertile soil

And step aside for the moon and the sun, and water
your roots

With happiness and fun, don't forget the fun

And if you don't wanna have any regrets

Take my advice and show some respect

For the law of creation, the key to success

Concentrate attention on cause and effect
