"Faith & Politics"

Visit "[Faith & Politics](#)" on MotoLyrics.com

I search for the words every day and I talk to all of my
friends
What about the victim pool, give the woman some
defense
It happened when I was younger I had no harsh words
for him
You say free will has a place here but what if I was
taught to believe in

Faith and politics cause honey I've been hit
And you know if it was up to me I would change reality
Broken by a myth, honey I've been hit
I could use a little free will now to change your faith
and politics

We use our instincts as weapons we feel the system
ain't fair
What about the fists of hunger save the woman some
despair
It happens when I go out and I don't think you
understand
You say free will has a place here but what if I was
taught to believe in

Faith and politics cause honey I've been hit
And you know if it was up to me I would change reality
Broken by a myth, honey I've been hit
I could use a little free will now to change your faith
and politics

You talk about my dignity like it's a bleeding policy
And when they take me down they'll be no worse than
you for killing me

The truth don't come to you like a shout or like a
powerful light
As hard as your looking out it's harder to look inside
It happens every day, I'm holding my head in my hands
You say free will has a place here but what if I was
taught to believe in

Faith and politics cause honey I've been hit
And you know if it was up to me I would change history
Broken by a myth, honey I've been hit
I could use a little free will now to change your faith
and politics
