Baby lets not go out to that party tonight

Id rather stay and look into your eyes

Over dinner and a fine wine, with you alone and lay you  
down

Like a road, take you where it is you want to go

Come dance with me fearless and fancy free

You must be an angel cause heaven knows

Nothing moves me like you do me

Nothing grooves me to my soul as your kisses so sweet

We got all night, now we could dance ourselves into the  
light

Like Christmas day in Santro Pe where I supply what  
you desire

Nothing moves me like you do me

Nothing grooves me high or low as your kisses so  
sweet

My love you take my love and give it back to me

So lets lock the door on the world tonight

Lets steal away and move by candlelight

Lets celebrate, intoxicate, like shooting stars and  
lullabies
