Next to a statue of Buddha angels sitting down
Nearby a bust of Jesus can be found
Ill sing out for Abraham, for Mohammed Ill turn around
Just give me something to believe in and give it now
And save me, come on now, I cant save myself
Save me, Im going down, give me just a little

Dont you think Ive worked so hard, Ive earned all your
favors
I support the cause and pay my taxes
Ive got my ambition fighting for rewards
I know theres a prize behind each door
So save me, come on now, I cant save myself
Save me, Im going down, give me just a little

Today Im just a Christian, tomorrow Im a saint
Cause Ill learn all the angles of the game
And Ill never misunderstand the meaning of the tide
All roads lead to where I keep my pride
So save me, come on now, I dont know myself
Save me, Im going down, give me all your wealth
Oh save me, come on now, I cant save myself
Save me, Im going down, give me just a little
