No one comes thru lately  
All my friends are flaky x 2

We should hang out sometime is a played out gesture  
Promises, promises hollow drunken pester

We are over people controllers

There's only so many times you can even the score  
Before a chore becomes worse than it was before

We are over people controllers

No one comes thru lately  
All my friends are flaky x 2

Life is like stew frequently you have to stir it baby,  
Follow thru and people act you crazy,

We are over people controllers

No one comes thru lately  
All my friends are flaky x 2
