The flower buds are fallin on my shoulders  
I'm standing in two feet of water  
I can't relate  
With the commotion  
Social vampires suckin out the emotion

Little bohemia has the best damn weather  
Ask that fop in the v-neck sweater  
How he relates  
with his next door neighbor  
Teeth fallin out of his head with crack behavior

it's just got to be that way  
don't you ever take away  
our little bohemia

hiphoppers, surfers, hippies and mo's  
butt rockers all livin in the same rows  
you can't debate  
it's much too late  
try as hard as you want you can't segregate, this

suburban servitude was never one of my goals  
it's a wonderful place to bury our souls  
so I can't relate  
in our short existence  
sheep running in circles overflowing with persistence
