Open your arms to the lonely shine
Lonesome as gold in a poor man's smile
See how the moon is full
Follow the push and pull
Follow the ebb and flow in the breathing tide
Come on moonchild, you're so far away tonight
The door is falling open and we're flying wild
Cat on the road, down in the living night
See how the black dog grins
In the diamond light
We're dreaming and we're real
We're broken and we're healed
Give in to what you feel over what you see
Come on moonchild, you're so far away tonight
The door is falling open and we're flying wild
Come on moon flower
You're so far away from now
You could bloom forever in the hour
And when if is only yes and no
And now becomes too soon
I know you'll be alright if you only

Come away to the moon

In the blue shine

Come on moonchild, you're so far away tonight

The door is falling open and we're flying wild

Come on moon flower

You're so far away from now

You could bloom forever in the hour
