These empty streets call out us, running underneath  
the stars

And every moment that I breathed was you  
Though I was the first to make you smile  
Still I also made you cry

Stolen moments in your arms, sending echoes from  
the past  
And all I'm really wanting now is you  
A thousand reasons to deny but look at where we are  
again

Chorus:

I want you back in my arms  
Don't wanna be the one to make you cry  
And I'll do anything just to get me back in your arms  
I wanna feel your heart right next to mine  
And I'll do anything just to get you back

A thousand years have long since passed  
Since we chose to fall apart  
A deafening silence causing pain  
I never thought it'd be this way  
I never thought I'd have the chance again  
(Repeat Chorus)
