When the night is still, and the sea is calm,
lonely shadow, you fall upon me,
lay by my side, fear not tonight,
lonely shadow, you'll find a new light
Dream a dream and see through angels eyes
a place where we can fly away
Ride with me upon a shining star,
above the moonlit sky, we will find elysium.
Hear the nightingale, sing a lullaby
lonely shadow, you'll find a new light
Dawn will be kind, all will be bright,
lonely shadow, rise from the darkness.
Dream a dream and see through angels eyes
a place where we can fly away
Ride with me upon a shining star
above the moonlit sky
Dream a dream and see through angels eyes
a place where we can fly away
Dream a dream and see through angels eyes
a place where we can fly away
Elysium
