No,  
Drop you head down ignoring the sound  
I know you hear me talking  
I can feel percussion on the ground  
Your nervous feet are tapping  
Talking to me, you're not looking to me  
That just says to me, that you kick and see  
I'm hooking it up, tell me was she good?  
Tell me was she worth it?  
Is she good as me?

Let your body rock, Who the hell wants to talk  
Let your body rock, with me  
Let your body rock, I don't wanna stop  
Who the hell wants to talk, not me

Take a messing on your thing, cause you're about to  
strike again  
It's a habit  
Leave, leave with whatever you can, there's the issue  
of your name  
You can have it

Talking to me, you're not looking to me  
That just says to me, that you kick and see  
I'm hooking it up, tell me was she good?  
Tell me was she worth it?  
Is she good as me?

Let your body rock, Who the hell wants to talk  
Let your body rock, with me  
Let your body rock, I don't wanna stop  
Who the hell wants to talk, not me

It all what you know, just bring it on home  
It's all what you know, don't keep talking, no more  
talking  
Don't keep talking, keep your talking to yourself

Let your body rock, ,  
Let your body rock, little minute ,

Let your body rock, I don't wanna stop  
Who the hell wants to talk, not me X 2  
Don't keep talking, no more talking  
Don't keep talking, keep your talking to yourself

Thanks to Andrei
