(Keith Murray)

Yo,yo,yo,yo,yo,yo come here, come here nigga, let me  
talk to you for a minute

Yo, yo, word up, it's muthafucking L.O.D., Def Squad  
Cutlass in the house, Redman in the house  
You know what time it is, boy, watch your back  
When I see y'all, pull your dreads out your scalp, check  
it

From the Secaucus Mountain to the African Sea  
Not near muthafucka want to fuck wit me  
Keith Murray, the ultimate Def Squad ?lean?  
Doin niggas in, twisting off Barcardi mixed wit  
Heineken  
I make niggas not want to leave the block  
Get caught out of bounds and get you wig ?clocked?  
I put a hole in the chest of any nigga trying to be the  
best  
Who the fuck you think you trying to impress  
I express stress for any nigga out there lying to the  
press  
I'll put your soul to rest  
Wherever you be at, pack your gat  
Cuz police wanna know where the bitches and the  
money at  
But fuck it, bust it, we'll discuss it  
On a later date when you see me wit Frankie in the  
Cutlass

(Chorus)-(Busta Rhymes)

Sorry homeboy but your flow sound used  
Got to pay ya dues, baby, you know the rules (4x)

(Coco Brovaz)

Me said, dem not ready, dem not really ready  
Fa test this, dem not really ready, fa test this, spliff  
Dem not really ready fa test this, a black spliff  
That I roll wide and pass it over to the side  
P.S.C, Coco be smoking up the ride  
We got a job to do (for who) never no mind you  
The time is now, it's going down, I'm glad I found you

Yo ?when we merking you? that got you talking so fast  
And let me know, am I gonna have to ?boot to D? your  
ass

Oh for some reason, some feel it's the season  
To be good scheming, on that teaming thang  
(Some niggas got the green, thinking they can hang)  
So let's take it to the square where Boot Camp is bang

Like Iron Mike, fresh out, on this hunt for gold  
Tell Frankie, throw the Cutlass on cruise control

We ?have to be out?, breeze out to the weed house  
From Midtown, hit the FDR heading South  
(No doubt) plus big up to Stash, count the cash before  
we go in

?Cuz plain co' through the do'?  
Trying to catch niggas wit they eyes closed  
(Niggas wit they eyes closed)  
Move swift and stay on your toes( stay on your tippy,  
tippy toes)  
More brothers on the borderline (borderline)  
Bless the sound and get ?dent? same time  
Wicked sound, ?come foy?, Sound Bwoy Burial style

Chorus
