I dreamt about being with you
And I wanna make my dream come true
But I know that your pain still remains
(I know your pain still remains)
And I wanna be the one that you
Can put your love and trust into
But when you really need someone
I'd like to be the one who will be right there

Chorus: I don't know what to say
I'll never have the words
Everytime I see your face it hurts
That I can't be with
Cause I know you don't want me to
You don't want me to
I wake up all alone
Make breakfast on my own
Everything has changed now that you're gone
Now I can't be with you
Living life is hard to do
When you don't want me to

I thought about the things I said
And I thought of what went through my head
But please know that my heart never changed
(please know my heart never changed)
And right now need for you to see
The very different side of me
When you know you can love someone
I'd like to be the one who will be right there

Chorus

You know it's not easy
When I can't stop thinking
Thinking about girl it's driving me crazy
Because you don't want me to

Chorus
