(feat. Emmavie)  
Begginig to the start  
An echo to the in soul  
Of the .. plan  
The plan starts with an ..  
And a large man  
We finish duty  
And I could be some .. man

No street .. load  
We're feelin too bro'  
..  
We stay in the studio  
Everyone's a rapped  
Is came in the gun and blow  
So be keep quite when the others..cause is what we do

Fellin like a sucker but the love of music  
Is ..I'll keep you hunger  
Hunger..belive in equality  
Jimmy big but dreams ..

..  
But the keys won't open the end of street oh  
Hopin on the base off  
Let the beat

Workin waiting for something  
To happend  
Pray Lord  
All this ..  
So I will be laughin

Hope my dreams come real  
When then I say  
ye yeeeaah

Hope my dreams come real  
Stuck into '95  
Of the ..  
So we feed up man  
Hope we .. for a friend

The ... kills our friend  
No .. but is exhausting  
We living off the dreams  
That we keep on dropping

Hoping that he grows up  
Oh we shows how we lovin every..  
Cut down

'51

So even that's the reason why each of us has to  
struggle once

Keepin of the peace of dreams

We had to had once

Ooh

Cause .. could be over-come

When you pull on a show

When.. no one comes

..When your money is gone

Chill boss

Open your pays off

Let the beat .. in off of this prayer

Workin waiting for something

To happend

Pray Lord

All this ..pays off

So I will be laughin

Hope my dreams come real

When then I say

Yeah

I hope my dreams come real
