

3rd Wish "I Am"

Visit "[I Am](#)" on MotoLyrics.com

I really like what I'm seein baby
I really really like your style oh baby
An I can tell that you're ma flavour baby
Come with me tonight

I gonna want you for myself
its all on you girl no one else
We'll be movin nice and smooth
When you come with me this night

I am, I am
I'm everything you'll ever need so understand
That if I can, be your man
I can heal your broken heart and make it beat again

Don't know what to say but I just want you
Judgin by your look I'd say you're down
to spending every morning (that's all we'll do)
Over and over again

No one's sayin no to her
Though in my mind I see you lyin
Next to me I'll treat you right
If you come with me this night

I am, I am
I'm everything you'll ever need so understand
That if I can, be your man
I can heal your broken heart and make it beat again

Just take a second look into my eyes (look into my eyes)
As the music brings you next to me
And I feel like I could give you my love
But still I don't (don't) know (know)
Can you tell me what to do

Comin straight home an dirty
Where you bakin' and sellin' them birdies
Go home and leave em coz I don't need em here
buggin me
I'm the rose go pimp with the diamond cut flashes
A glimpse at the chain and you might need some _____

So any groupies on my dick I make em move an take a
pic
Coz they aint use to me or even seein nothing like this
The bling on ma left wrist is breathless
I come from the land of the free but see I'm young an
I'm restless
Coz I got em down an testin because they heard that
sex
was like f*ckin on ecstasy her boy's a legacy
Girl I can make you feel so good an heavenly
But ya gotta have an ass curve like the letter 'c'
Stop frontin' you want it
But see I'm still gonna creep through the corner
Roarin up on the west sippin on a corona
I know she want me to change but all I want is some
brain
An maybe one day I will but for now I jus cant coz I

I am, I am
I'm everything you'll ever need so understand
If I can, be your man
I can heal your broken heart and make it beat again
(beat again)

I am, I am
I'm everything you'll ever need so understand
If I can, be your man
I can heal your broken heart and make it beat again (i
can make it beat again)

I am, I am
I'm everything you'll ever need so understand
If I can, be your man
I can heal your broken heart and make it beat again (i
can make it beat again)

I am, I am
I'm everything you'll ever need so understand
That if I can, be your man
I can heal your broken heart and make it beat again

I am, (come on)
I can heal your broken heart and make it beat again
